## DXCC News (New Criterion for Political Entities)

Thanks to "The Daily DX" for sending out the following report [edited], "Starting after the ARRL Board meeting today (20 January 2018) a new DXCC criterion will be added to Section II for Political Entities (point 1). Currently there are three criteria for Political Entities. If any one of the following three criteria are met the entity qualifies as a Political Entity on the DXCC list:

- 1) United Nations Member State
- 2) Prefix is on ITU callsign prefix block
- 3) "The entity contains a permanent population, is administered by a local government and is located at least 800 km from its parent.

To satisfy the "permanent population" and "administered by a local government" criteria of this sub-section, an Entity must be listed on either (a) the US Department of State's list of "Dependencies and Areas of Special Sovereignty" [www.state.gov/s/inr/rls/10543.htm](http://www.state.gov/s/inr/rls/10543.htm) as having a local "Administrative Centre," or (b) the United Nations list of "Non-Self-Governing Territories" [www.un.org/en/decolonization/nonselgovernterries.shtml](http://www.un.org/en/decolonization/nonselgovernterries.shtml)

The new criterion, which goes into effect after the BOD meeting, will be if the potential entity is a member society of the IARU [www.iaru.org/member-societies.html](http://www.iaru.org/member-societies.html) and is listed on the United States Department of State Independent States of the World list [www.state.gov/s/inr/rls/4250.htm](http://www.state.gov/s/inr/rls/4250.htm). The Entity must be on both lists to qualify as a Political Entity. QRX for the exact timing that the new rule will go into effect.

## Amendment to ARRL DXCC Rules Will Expand DXCC List

The ARRL Board of Directors approved a motion to amend the DXCC Rules, when it met January 19 - 20. Section II, Subsection 1 of the DXCC Rules now will include a new Subsection (d): The entity has a separate IARU member society and is included on the US State Department Independent States in the World [www.state.gov/s/inr/rls/4250.htm](http://www.state.gov/s/inr/rls/4250.htm).

"The discussion during the Board meeting and the rule change did not address any specific entity," ARRL Radiosport Manager Norm Fusaro, W3IZ, said. "The amendment could allow some additions to the current DXCC List of entities. It's a good thing not only for DXCC but for all active hams."

In fact, the Republic of Kosovo (Z6) has been added to the DXCC List of current entities, increasing the total number of current DXCC entities to 340. The addition of Kosovo raises to 331 the required number of current entities confirmed to qualify for DXCC Honour Roll; Top of Honour Roll is 340. DXCC award accounts are being tabulated to reflect the change.

This change qualifies as an "event," effective at 00:00 UTC on 21 January 2018. Nothing is retroactive.

A new Logbook of The World (LoTW) TQSL configuration file (v.11.4) will be released on 23 January. TQSL will detect when this file has been released and will install the update automatically. Radio Amateurs outside of Kosovo should continue to upload their logs to LoTW in the usual manner. LoTW users within Kosovo

(either with a Z6 call sign or reciprocal call sign Z6/home call sign) will use TQSL to request a new call sign certificate for their call sign. The request will use Republic of Kosovo as the DXCC entity, and the QSO Begin date will be 21 January or later. LoTW will reject call sign certificate requests for the Republic of Kosovo with a QSO Begin date prior to 21 January. Z6 users requesting call sign certificates may e-mail a copy of their Amateur Radio license to, [LoTW-Help@arrl.org](mailto:LoTW-Help@arrl.org).

Kosovo's IARU member society SHRAK [www.shrak.org/en/](http://www.shrak.org/en/) and its president Vjollca Caka, Z61VB, are hosting a 10<sup>th</sup> anniversary activation to celebrate Kosovo's independence in February 2008.

SHRAK Headquarters station Z60A now is active on several bands with multiple guest operators. Club Log will be used for this activation, while QSLs are via OH2BH.

### The Summer QRP Contest

The QRP contest is intended to be a fun activity to promote QRP operation between radio amateurs using homebuilt equipment or operating as a portable/field station and using temporary antennas. This is encouraged but is not a requirement.

The Summer QRP Contest takes place from 12:00 to 15:00 UTC on Saturday 27 January 2018 using Phone and CW with 5 watts (PEP) output or less and there are no antenna restrictions. The first hour is limited to the 40-m band only, the remaining two hours the contesters are free to use any HF (non-WARC) band as they see fit.

The exchange is a RS or RST report and your 6-figure Grid locator, you can also include your SOTA or Fauna and Flora reference number. Each QSO counts 1 point and there are Prefix or Country multipliers as well as station type multipliers. You log in ADIF, Cabrillo or MS Excel format with a summary sheet and labelled "my call sign QRP Contest," must be submitted by 3 February 2018 by e-mail to [contest@sarl.org.za](mailto:contest@sarl.org.za). And do not forget the photos of your station in action that must accompany the log entry. Consult the 2018 SARL Blue Book for the complete set of rules.

### February

24 and 25 – Clarens Beer Festival  
24 – closing date Youth logs; West Rand Flea market and CTARC meeting  
25 – SARL Digital Contest

### Helpful FT8 Operating Guide

Gary, ZL2IFB has published his "FT8 Operating Guide", described as "a collection of pragmatic tips that takes over where the WSJT-X help and installation notes leave off." It is "specifically aimed at HF DXers" [www.g4ifb.com/FT8\\_Hinson\\_tips\\_for\\_HF\\_DXers.pdf](http://www.g4ifb.com/FT8_Hinson_tips_for_HF_DXers.pdf).

It started out as my rough notes as I fumbled around with the new mode", he says. "Those grew steadily over the past few months, absorbing information, advice and helpful hints from many sources including plenty of encouraging comments on the web version. I've peppered it with screen shots, quotes, comments and ideas, and given it a little structure. It's still not entirely 'finished' (partly because the operating techniques and software are still evolving) but I wanted to get it out there ahead of Bouvet, so those who intend to have a go at working 3Y0Z on FT8 have a chance to read and practice their skills, honing their techniques before the Main Event.

Feedback welcome, especially corrections and further tips... such as how we are going to cope with 3Y0Z's extra wide splits, and wall-to-wall continuous callers".

ARRRRRRRRRRRRRRRR!

### Pirate Alert

Champ, E21EIC/XW1IC, informs that HS/RA4AR is pirate. He does not have license and is operating illegally in Thailand.

## St Patrick's Day

In Ireland we traditionally celebrate St Patrick's Day on 17 March (*coincides with my wedding anniversary!*) But with radio we go world-wide by getting on air following the time zones as people celebrate across the globe from 12:00 on 16 March until 12:00 on 18 March. So why not take part in this fun e-award and help turn the bands green for St Patrick's Day.

For more information go to <http://stpatrickaward.webs.com>

## New SOTA Associations 2017

Fifteen new SOTA associations were added during the year 2017, bringing the total to 136. These were

VY2	Canada - PEI	George, VY2GF	1 April 2017	1	2
ZB2	Gibraltar	Simon, GBTC	1 April 2017	1	1

Planning and documentation is already at an advanced stage for several newer associations that will be added during 2018. For any countries not yet represented, the SOTA Management Team is happy to provide advice and support in the aim of bringing qualifying areas into the global programme. Please get in touch via <http://www.sota.org.uk/Contact>

## African DX

*Contacts with stations on the African continent count towards the SARL's All Africa Award.*

African Tour. Sadao, JA1PBV, is currently active as 9X2S from Kigali, Rwanda until 23 January. From there he will travel back to Entebbe, Uganda and be active as 5X2S until 29 January, before heading home. Activity from both places have been on 20 and 17 metres using CW and FT8. QSL via JA1PBV or ClubLog's OQRS.

Guinea Bissau, J5. Livio, IZ3BUR, is on a mission to support a "Books for High School of Cumara" project from 24 January to 21 February. During his spare time, he plans to operate as J52EC from Gianfranco's (J52OFM) QTH. QSL via IZ3BUR.

Togo, 5V. John, N9MDH operates as 5V1JE until the end of May from Lome with a focus on the WARC bands and digital modes. QSL via N9MDH, direct or via the bureau and LoTW.

Namibia, V5. Rudi, DK7PE, will be active as V5/DK7PE from Omarura between 24 and 30/31 January. Activity will have an emphasis on 160 and 60 meters, including participation in the CQ WW 160 m CW Contest (26 to 28 January). Rudi states, "You may QSL direct, but please do not send any IRCs for return postage. I do not need a QSL, so you can use PayPal and send me the contact details. If the QSO is OK in my log, I will send you the confirmation. This way may also be used for my older DXpeditions! Please use [www.paypal.me/DK7PE](http://www.paypal.me/DK7PE)." Watch his home page for possible updates [www.roody.de](http://www.roody.de)

Zimbabwe, Z2 (Update). Rune, LA7THA, Arne, LA7WCA and Thor, LA9VPA will be active as Z2LA between 2 and 11 March. Activity will be holiday style on various HF bands (160 – 10 m) using CW, SSB and the digital modes. QSL via ClubLog's OQRS, M00XO or his OQRS. Visit their new Web site at [www.la9vpa.com/z2la](http://www.la9vpa.com/z2la)

## African Islands

SSB: 28 560 28 460 24 950 21 260 18 128 14 260 7 055 3 760 kHz

Mozambique, C9. Johannes, PA5X and Gerben, PG5M are going to activate Ibu Island (AF-061, Cabo Delgado District) from 28 January to 5 February as C8X and C81G on 80 to 10 m, including 60 m on CW, SSB, and FT8. QSL for C81G via PG5M or ClubLog, C8X via PA5X, direct or via the bureau.

Comoros, D6. Giovanni/IK5BCM, Giuseppe/IK5CBE, and Giovanni/IK5CRH will be active as D68I from the Comoros (AF-007) between 29 January and 10 February with CW, SSB and digital modes on 80 to 10 m. QSL via IK5CRH.

Mozambique, C96/C98, (2 IOTA Op/Update). Members of the Russian Robinson Club (RRC) will be active as C96RRC (AF-088) and C98RRC (AF-066). Operators mentioned are Vasily, R7AL, Vasily, RA1ZZ, AI, RZ3K, Vlad, RK8A and Aleksei, RN3BZ. The pilot station will be Victor, UA3AKO. Their tentative schedule is as follows - 29 April to 3 May from Mozambique Island (AF-088) as C96RRC and 5 to 9 May from Inhaca Island (AF-066) as C98RRC

Activity will be on 40, 30, 20, 17, 15, 10 meters using CW, SSB and the digital modes. QSL via R7AL or ClubLog's OQRS (preferred). Added note: In 2018 the RRC is celebrating their 25th anniversary of "Russian Robinson Club". They now have a Web page online at <https://dxpedition.wixsite.com/mozambique>

3B7A St Brandon Island DXpedition News (Press Release #5) [edited]. An updated most wanted list has been published on Clublog. It now shows Saint Brandon as the 27th most wanted entity worldwide (#19 NA, #17 SA, #33 AS, #28 OC, #34 AF, #48 EU). This statistic clearly confirms the relevance of our DXpedition, we knew the demand to be high more than 10 years after 3B7C.

Same as with our previous projects, we know a flawless preparation is the key of the success. We are now working carefully on propagation fore- cast. Of course, our experience of this area is a big advantage, we know some specifics tips, possible openings, etc. These forecasts will drive our operations from the first to the very last day, giving priority to the area with the shortest and most difficult conditions.

We would like to thank our pilot team - Bjorn, ON9CFG, Paul, N6PSE, Javi, LU5FF, Joe, JJ3PRT, and our "chief pilot" Michel, F6AGM (ex-FM5CD). Please share your experience and all interesting information with your local pilot during the expedition. We will be in touch with them daily thanks to our satellite phone.

The pilots will NOT have access to the logs! Questions related to your QSOs should be submitted to our QSL manager through the online form on our website. Do not expect answer until we are back in France.

We would like to take advantage of this communication to wish good luck to our 3Y0Z friends on the way to Bouvet.

Please keep on supporting our project on our website [www.saintbrandondx.com/en/how-to-help-us/](http://www.saintbrandondx.com/en/how-to-help-us/) and follow us on Facebook [www.facebook.com/SaintBrandonDX/](https://www.facebook.com/SaintBrandonDX/) and Twitter @SaintBrandonDX

## The results of the 2017 IARU HF Contest

The 'full results' article for the 2017 IARU HF Contest <http://www.arrl.org/iaru-hf-championship> are now available via the ARRL results articles web page <http://www.arrl.org/contest-results-articles>. The article, written by Doug, K1DG, discusses the number of operators that travelled to take part in this contest, including many that may be competing in the WRTC 2018 event in July.

## Clublog's Annual Report

Clublog's founder Michael, G7VJR, published an 'annual report' of mode usage as reflected by the uploads of contacts to the Clublog service <http://g7vjr.org/2018/01/proportion-of-modes-used-on-the-air-2017-update/>. According to Michael, "2017 was, of course, the year when digital modes changed forever with the advent of FT8. It is a remarkable technical achievement which has breathed life and enthusiasm into DXing for a whole new audience."

### Operating Tip

Changing A Window Location to Avoid a Pain in the Neck. This tip was prompted by a story appearing in the Northern California Contest Club's (NCCC) December 2017 JUG newsletter (PDF) <http://nccc.cc/jug/2017/12Dec2017.pdf>. Sometimes just moving a window on the screen of your monitor can change your posture enough to reduce or eliminate operator pain or fatigue. Hank, W6SX, experienced neck pain after a RTTY contest, which he solved by changing his screen layout. He moved his logger's RTTY decoding window to a location higher on this computer monitor, which changed his neck position, and got rid of the ache.

Bonus: If you need to display a website but it's not in your language, try using Google Translate (<http://translate.google.com>). Just type the URL into the Google Translate page, and you can choose the target language if it is not detected automatically. *(Do not trust Google Translate – I have seen how it translates from English to Afrikaans – not a pretty sight!)*

### Explore and decode RF digital signals

Universal Radio Hacker (URH) <https://github.com/jopohl/urh> is an open-source project that you can use in conjunction with SDR hardware to explore and decode RF digital signals. It helps you explore everything above and including the 'physical layer' of the protocol stack. Applications could include decoding the protocol a wireless doorbell is using, or getting your weather station's data into your PC using a cheap DVB-T dongle <https://www.rtl-sdr.com/reverse-engineering-weather-station-rf-signals-with-an-rtl-sdr/>.
